Training Day-1 report

23 June, 2025

Today was the first day of training. I learnt a few things about the company. Those are as :

Ryaz.io Technologies is a fully remote technology company providing software solutions and IT services to businesses globally. The company is structured to operate 100% online, with team members and clients located across different time zones.

Services Offered

- **Custom Software Development** : Web, desktop, and cross-platform application development tailored to client needs.

- **Mobile App Development** : Native and hybrid mobile apps for Android and iOS platforms.

- **Cloud Solutions** : Infrastructure setup, migration, and DevOps support on AWS, Azure, and GCP.

- **Web Development** : Frontend and backend development using modern JavaScript frameworks and RESTful APIs.

Remote Work Model

- The company operates entirely through remote tools and platforms.

- Communication is managed through Slack, Zoom, and asynchronous updates.

- Code repositories and CI/CD pipelines are managed via GitHub and GitLab.

- Work hours are flexible, with a focus on output rather than clock time.

Technical Stack

- **Frontend:** React, Vue, Next.js , React Native etc.

- **Backend:** Node.js, Express, Django, FastAPI etc.

- **Databases:** PostgreSQL, MongoDB, MySQL

- **Cloud:** AWS, Azure, Google Cloud

- **DevOps:** Docker, GitHub Actions etc.
